

# Compostable Card

TUV OK HOME COMPOST CERTIFIED

Compostable Card is a paper-based engineered board developed as a versatile, durable alternative to plastic, made from 100% post-consumer recycled fiber (PCRf) and FDA food-contact-compliant materials. Engineered for demanding environments, the material delivers moisture resistance and temperature stability while still breaking down in home composting systems when properly disposed of, enabling use across bakery closures, security wrap carriers, paper gift and loyalty cards, and durable signage.

## APPLICATIONS

- Bakery Applications
- Gift and Loyalty Cards
- Durable Signage

## PHYSICAL PROPERTIES

- Moisture Resistant
- Home OK Compostability
- Fiber Content: 100% PCW

This product enables further innovation in fiber-based applications, where durability, sustainability, and end-of-life recovery are increasingly essential.
